Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Learner control

Advisory model

- Three advisory models:
Procedural, strategic, feedback advisory model
- First experiment: Procedural advisory model
Advice on self-assessment = Providing scoring rubrique with task relevant performance standards
Advice on task selection = important task aspects and straightforward advice

Research question

Explorative study:

What are the effects of the Procedural Advice on self-assessment and task selection skills and domain-specific skills?
