

Datamining context

Citation for published version (APA):

De Jong, T. (2007). *Datamining context*.

Document status and date:

Published: 06/07/2007

Document Version:

Peer reviewed version

Document license:

CC BY-NC-ND

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Datamining context

Tim de Jong

Onderwijstechnologisch Expertise
Centrum(OTEC)

Our research in context

- > Open University: distance learning
- > OTEC: Learning networks and e-learning
- > Specific aim: Lifelong learning
- > My focus: Mobile Learning

What is mobile learning?

- > Learning by doing
- > Social awareness
- > Communication
- > Playing games
- > Learning in a specific real-world context

Learning in Context

Takes into account:

- > Identity
- > Location(s)
- > Time
- > Environment or activity
- > Relations/Social context

Applying datamining

Finding:

- > Interesting context parameters
- > Interesting combinations of context
- > Rules for content delivery
- > Social relations between people
- > Interactions with objects and places
